How MUCH WILL KELP A HORSE .of hay, or its equivalent, in a year. And we suppose the real point to get at is, whether one can keep his horses cheaper on some other product than hay. This is an exceedingly difficult question to answer-it depends so much en eircumstanfully at this time. but will merely say that, in our opinion, three and a half tons of corn-stalks and two and a half tons of corn would keep a horse a year in fully as good condition as six tons of

ry, and now shall be their hospital

We may estimate, also, that it will take three and a-half tons of oats straw, and two and a half toos of oats to keep a horse a year. A bushel of oats weighs thirty two pounds, so that it will take over 155 bushels and three and a balf tons of straw to keep a horse a year - Boots and Shoes, for Men & Boys, Ladies, Misses & Children, Salt and Nalls. Together with a full assort. It would take about two acres of good land to produce this amount - America. Stock Journal.

fect application of DR. SAGL'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried high up and perfectly applied to all parts of the affected mash passages, and the chambers or cavities communicating therewith, in which sores and nicers frequently crist, and from which the catarrhal discharge generally proceeds. The want of encees in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. In using this instrument, the Fiuld is carried by its own weight) no snuffing freeling or pumping being required.) up one nostrill in a full gently dowing stream to the highest portion of the masal passages, passas into and thoroughly cleanees all the mbes and chambers connected therewith, and flows out of the opposite nostrill. Its use is pleasant rais so simple that a child can understand it. Full and explicit directions accomenny each instrument. When used with his instrument, Dr. Sage's Catarrh Remedy care s recent attacks of "Cold in the Head?" by a few applications. Symptoms of Catarrhs. Frequent bendache, discharge falling into threat, sometimes profuse, watery, thick mueus, plandard, offensive, &c. In others a dryness, dry, watery, weak or inflamed eyes, stopping up or obstruction of rassi passages, ringing in ears, deafness, hawking and compling to clear throat, ulcerations, scabs from ulcers, voice alread, masal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of aspetite, indigention, enlarged tonsils, tickling couch, &c. Only a few of these symptoms are likely to be present in any case at one time.

By Pierce's Nasail Bouche, and accom-

few of these symptoms are there to be been any case at one time.

Br. Sage's Catarrh Remedy, when used with Br. Pierce's Nasal Bouche, and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease, and the proprietor offers, in good faith, \$500 roward for a case he can not cure. The Remedy is mild and pleasant to use, containing no atrong or caustic drugs or poisons. The Catarrh Remedy is soid at 50 cents, Bouche at 60 cents, by all Bruggista, or either will be mailed by proprietor on receipt of 60 cents.
